

QMBE 4400

Pre-mba Business Statistics, *Department of Economics and Finance, University of New Orleans, 2017*

QMBE 4400 Summer 2017	Areas for Improvement	Instructor's Strengths
1	Class was mainly self-taught. Lectures were disorganized.	I liked that we moved fast in order to cover the most subjects in a small amount of time.
2	I need more definitions and less concepts. More problem solving. Slow down when using excel.	high knowledge, and is very understanding and switched his teaching style for the classes benefit.
3	Hard to say because it was a summer course, but he did well to be a teacher asst.	

Enrollment: 5

Evaluations: 5

Category 1: Engagement / Interest - 3.857

Category 2: Assessment - 4.000

Category 3: Organization / Clarity - 3.560

Category 4: Overall Evaluation / Learning - 3.667

FIN 3300

Corporate Finance, *Department of Economics and Finance, University of New Orleans, 2017*

FIN 3300 Fall 2017	Areas for Improvement	Instructor's Strengths
1		You are really nice and I can tell you are getting better at teaching as time is going by.
2		This professor truly cares about our grades and how well we understand the material.
3	Hopefully becomes available fall & spring. Great teacher who makes the course easy, you just	Very understanding toward all students in the room.

	have to study and go to the tutor 2nd day of class.	
4		The instructor is very enthusiasm. His lessons were so much easier to remember. He was concerned about my progress in the course. He is my favorite professor in this semester.
5	None he was a great professor and very helpful.	He knows what to do
6	Nothing	challenged everyone to think critically and keep students engaged
7	N/A	Explained the work good. Made it easy to learn the material. Answered all questions with no problem.

Enrollment: 29

ECON2221

Money and Banking, *Department of Economics and Finance, University of New Orleans*, 2018

ECON 2221 Spring 2018	Areas for Improvement	Instructor's Strengths
1	Connect could be a easier process. Grades not communicated clearly from homework.	Wanted students to progress, necessary knowledge, and prepared.
2		
3	Interact a little more with students.	easy going and approachable.

4		
5	None	Interesting topic, knows what's going on with the world
6	None.	Mr. Lutey is very straightforward and to the point on the subject matter. Kept us engaged during class by giving us problems to work on together.
7	Please do not read off of the PowerPoint.	Very approachable and ready to answer questions.
8

ECON1203

Microeconomics, Department of Economics and Finance, University of New Orleans, 2018

ECON 1203 Summer 2018	Areas for Improvement	Instructor's Strengths
1	None	That he would teach us something until we fully understand and he was available if we need it more help
2	N/A	Communicating with students, helping students, making sure students understand the materials
3	none honestly, he seems to be right on track in his career	his best strength was caring for the students. I have taken classes in the past where the teachers did not care at all but he let us know from day 1 that he was there to educate us but not fail us and that he would

		help us if we asked, which he did

ECON1204

Macroeconomics, *Department of Economics and Finance, University of New Orleans*,
2018

ECON 1203 Summer 2018	Areas for Improvement	Instructor's Strengths
1	Professor is very knowledgeable in the subject and presents the info clearly and cares about his students. The only negative is that he speaks in a monotone sometimes.	He told us exactly what was required, and as long as you met those requirements you will be fine.
2	Doing more group activities would help explain the problems more, but overall a great class.	The professor was very patient and really took the time to make sure everyone understood the material being taught.
3	Very good instructor!	Very concerned that the students are doing good in the class.
4	none	Worked out all problems and made sure we all understood them. Great class would take instructor again.

5	Making the class more engaging. Assigning weekly homework so that we don't forget about material taught in class.	Very fun teacher! He understood everything he was talking about and taught the course very well
6	He needs to switch up his entire style of teaching.	The instructor strongly relates to the students in his class. Communication was very strong. Everything that he had planned for the course was prepared and presented either during lecture or via email to the class before the next lecture.
7	Making the class more engaging. Assigning weekly homework so that we don't forget about material taught in class.	I really like how the instructor goes over the material in class but really leaves it up to the student to master the material during the homework assignments or while studying. I feel like I get more out of the class when he does this because it makes me go the extra mile if I want to do to good in the class .
8	Could be better prepared	Relatable & understanding
9	Speak louder overall or mandate students sit near the front of the room.	That he knows what he doing
10	Possibly practicing speaking to a larger audience as students in the back found it difficult to hear him.	fair grader
11	Being more open to answer questions that students are having trouble with	Good at explaining and cares for his students.
12	Speak louder, be more confident, and move around. Lecture more than expect students to always talk.	The professor was very patient and really took the time to make sure everyone understood the material being taught.
